

Description

Material	Poly cotton canvas coated on one side
Coating	White, matt coating
Properties	<p>High stability against environmental influences also with dye-based inks</p> <p>Fast drying</p> <p>Water resistant printing</p> <p>Matt colour reproduction, no reflections on the printed surface</p> <p>Natural coloured textile backing</p> <p>Further processing by sewing or eyeleting possible</p> <p>Suitable for stretching on stretched bars (no cracking on edges)</p>
Application	Indoor signs, framed art, outdoor signage, art prints (clichés), poster, exhibition works, stage decoration...
Durability	For indoor medium-term use
Printing systems	Bubble jet and piezo
Inks	Dye-based and pigmented inks, latex

Laminating

We recommend protecting the printer surface when it is subjected to abrasion, moisture or other mechanical influences. In this case, we recommend protecting the image with an appropriate liquid lamination.

Technical Data

Material	Poly cotton canvas (50% cotton, 50% polyester)		
Thickness	400 µm		
Weight	320 g/m ²		
Dimensions	610 mm - 24"	914 mm - 36"	
	1118 mm - 44"	1520 mm - 60"	
Roll length	25 m (any other length can be produced under request)		

Storage

After printing we recommend to remove the remaining roll from the plotter and to keep the canvas in the original packaging in a cool and dry environment

Notes

Due to the natural components of the cotton in the raw textile, the surface finish of the media can slightly vary. Also, slight colour deviations can occur from production to production
