

EMBLEM Solvent Textile Banner Heavy FR II

EMBLEM Solvent Textile Banner Heavy FR II is based on a polyester fabric with a water-based coating for commercially available eco solvent, solvent, latex and UV inks. The versatile textile convinces with a matt, textile surface and a pleasant stable feel. It is used for POS advertising, trade fair and stage decoration.

Matchcode:	SOTBHEFR2
Material:	coated polyester fabric
Finish:	matt
Color:	weiß
Weight:	245 g/m ² ±2
Thickness:	260 µm ±2
Weave:	woven
Opacity:	appr. 56 %
Fire behaviour:	not easily flammable - B1 – acc. DIN 4102
Standard rolls width:	1067 / 1370 / 1520 mm
Standard roll length:	30 m
Durability:	up to 3 months in protected outdoor areas, under Central European standard climate
Storage:	cool and dry environment, at 15-25 °C, 20-60 % rel. humidity
Shelf life:	12 month in original packing

COMPATIBLE INKS:

Eco Solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Solvent Textile Banner Heavy FR II

Description:

EMBLEM Solvent Textile Banner Heavy FR II is based on a polyester fabric. The water-based coating can be printed with standard eco solvent, solvent, latex and UV inks. The low-reflective coating enables colourful prints for advertising. The textile can be used in many ways and convinces with its clear textile surface and a pleasant stable feel.

It is used, for example, for POS advertising, trade fair and stage decoration, displays and flying banners.

EMBLEM SOTBHEFR2 is PVC-free and contains no phthalates or heavy metals. It is Reach compliant according to EU Regulation 1907/2006. The textile is not easily flammable according to DIN 4102-1.

Processing:

The textile can be sewn and eyed for further processing. It can be cut both cold and hot. During further processing, tools must be used that are appropriate for the subsequent use. Especially in the case of eyed banners, the distance between the grommets must be appropriate to the use.

Volatile VOCs contained in prints must be completely dried before further processing. The drying of the printed medium depends strongly on the ink application. Solvent residues, caused by too short drying times, can lead to blocking of the wound webs or ghosting when rolled.

Correct device and temperature settings should be checked by a test print. To avoid fingerprints, the use of cotton gloves is recommended.

Application:

Typical applications are POS advertising, trade fair and stage decoration, displays and flying banners.
