

GENERAL SPECIFICATIONS

Category	Sub-category	/	
Glitter	Glitter	Glitter	
Finishes	shes Textured		
Textured	Type of produ PET	ıct	
Width	Length		
122cm	30 meters	30 meters	
Adhesive		crylic PSA iir release system	
Warranty		10 years	
Stretchable	St	Not retchable	
Resistance to scratch		Average	
Pattern direction		-	
Thickness (average by category)		400 µm	
Storage condition (maxin from delivery)	num 3 years 5° (C to 30° C	
Installation method		Dry	
Installation area		Interior	
Installation temperature	12° (C to 38° C	
Installation method (ABB	A - ABAB)	ABAB	

CERTIFICATIONS

Compliant	CE Wallcovering (EN15102)	
Not tested	REACH	
Not tested	Aldehydes after emission (CMR ISO 16000)	
Not tested	Volatile Ogranic Compounds Testing (EN16516)	
Coming soon	Fire rating (EN13502)	
Coming soon	Anti-fire door (ANSI/UL 10C - ANSI/UL 10B)	
Not required	Wall covering - specification for cork roll (EN13085)	
No	IMO/MED Modul B - E	
Not tested	RAIL (ISO 5658 - 2:2006 + A1:2011)	
Not tested	Stain resistance (Tchibo)	
Not tested	Antibacterial properties JIS Z 2081 am. 1 (2012)	
Not tested	Spongeability (EN12956)	
Not tested	Washability (EN12956)	
Not tested	Scrubability (EN12956)	

d	X12) - Assessment according to grey scales	Not tested
d	Color fastness to shampooing (ISO 18168)	Not tested
d	Color fastness to water (ISO 105-E01)	Not tested
n	Liquid absorbency capacity (ISO 9073-6 2000)	Not tested
n	Liquid wicking rate (ISO 9073-6 2000)	Not tested
d	Dimensional stability (ISO 3759) - 24h at 50° C - 65% humidity	Not tested
o	Heat and thermal cycle resistance	Coming soon
d	Color fastness to light	Coming soon
d	Adhesion Test	24 hours after installation:
d		1.43 Kg/cm
d	Moisture resistance	Not tested
d		

Color fastness to rubbing (ISO 105-

CARE AND MAINTENANCE

DURABILITY:

This product offers exceptional resistance to water, dirt, abrasion, UV rays and wear (yellowing, crackling, scaling, delamination).

MAINTENANCE:

Apply a mild soap to clean the surface of the film, such as a pH neutral detergent. Avoid using products with excessively acidic or basic pH levels. For stubborn stain removal, apply hot water (not boilling). If necessary, use a solution of isopropyl alcohol and water (70% ISO, 30% H2O). However, do not use this solution to printed Cover Styl surfaces. - When cleaning the film surface, only use soft cloths or sponges to avoid causing any damage. - Avoid using cleaning products that are organic-based, such as ammonia or polish, as they can be harmful to the vinyl. Cleaning detergents, bactericides, and virucidal products should be tested on a hidden section prior to use. - For Cork references, due to their ability to resist dust and dirt, minimal cleaning and care is required. Use a brush with gentle bristles to clean these surfaces. In the event of wet or damp stains use an absorbent cloth to wipe away the moisture and meticulously dry the affected area as soon as possible. By following these instructions, you can ensure the longevity and appearance of your vinyl. Persistent stains indicate inadequate care and maintenance. In such cases, consider using a patch repair method (not guaranteed but effective and economical) or replacing the entire vinyl.

Non-contractual visuals and data, Cover Styl reserves the right to change the composition of its films at any time. The rendition of the colours and finishes on the computer may vary according to the screen and not give a true representation of the true appearance. We therefore recommend you order a sample on line or contact us so that we can examine the finish that best adapts to your requirements. Due to the slight differences in colour in production runs, we advise you to purchase the amount you require in one go to avoid any difference in appearance in the execution of your Cover Styl project.
